

**Keep it up
Maryland!**

Millions of people have received the COVID-19 vaccine.

Have you had yours?

It's free, safe, and helping us get back to normal!

ALREADY VACCINATED?

The CDC now says fully vaccinated people can go maskless in many situations. Keep in mind, as more people get vaccinated, guidance for safe activities is evolving. Check with your workplace or local jurisdiction and individual businesses – some may keep mask requirements in place for now. A federal order still requires masks on planes, subways, buses, and other mass transit.

ADDITIONAL GUIDANCE

The CDC recommends that individuals who are not fully vaccinated and aged 2 or older wear a mask in indoor public places.

Remember, telehealth is a safe and convenient way to receive a wide range of services for urgent, primary and specialty care! Stay home if you're feeling sick and ask your health care provider if telehealth is a good option for you.
